

Managing Your Online Reputation

CHECK YOUR SETTINGS

Some of the most popular social networks are set to public by default, meaning everyone can see our photos, what we are sharing or talking about. Regularly check your privacy settings across your social networks and apps. We recommend a 'friends only' option for your online profiles.

SEARCH FOR YOURSELF ONLINE

Do a quick search for yourself online, if you find something you don't like report it with the website or network host requesting the content be removed.

DEACTIVATE OLD ACCOUNTS

Social media changes so quickly, it can be easy to forget about old accounts or networks we've signed up to. If you're not using an account delete/deactivate it, this can help avoid risk of accounts/profiles being hacked.

MAKE THE MOST OF YOUR TIME ONLINE

What we do online can follow us around, ensure you make a positive impact. Whether it's starting a blog, raising awareness for something you care about or becoming the next Mark Zuckerberg... the possibilities are endless!

THINK BEFORE YOU POST

Before you share, comment, like, post, Tweet or pin anything... ask yourself if this is something you want everyone to see? Use the **THINK** model if you're unsure about posting something online >>> Ask yourself is it **T**True? Is it **H**elpful? Is it **I**llegal? Is it **N**ecessary? Is it **K**ind?
